**Instrument Approach:** No

**AWOS:** No

**Surface description:** Ground level concrete pad. Oriented to the SW.

**Remarks:** This pad is used by the Glenville FD as a scene LZ and is located on a private residence.

### HAZARDS

**Hazards:** Wires are located along the road that is north of the helipad, the wires follow the road from the east to the Southwest. One set of lines extends from the hanger north toward the road. There are two buildings in close proximity to the helipad. One SW and one SE, both are adjacent to the pad.

IF YOU CONTINUE DOWN THE VALLEY TO THE SOUTHWEST YOU WILL ENCOUNTER A SET OF HIGH TENSION POWER LINES, STRUNG ACROSS THE VALLEY FROM THE NORTHWEST TO THE SOUTHEAST.
